

Leadership for Educational Equity (LEE) is a non-partisan, non-profit leadership development organization dedicated to ensuring **every child** has the opportunity to attain an excellent education. By inspiring and empowering a diverse movement of leaders to engage civically and politically on behalf of **children** in their communities, we believe we can achieve educational equity in our time.

- O** **U** **R** **W** **O** **R** **K**
- Advocacy and Organizing**
LEE works with our members to build power and end the injustice of educational inequity by providing them with the skills, resources, and networks they need to effectively advocate, organize, and engage civically in their communities.
 - Policy Leadership**
LEE works to empower our members to think critically about policies affecting children in their communities and across the nation, while inspiring and connecting them to opportunities to influence and shape policy at all levels of government.
 - Elected Leadership**
LEE works to develop the leadership of members interested in serving children and their communities in elected office and provides them with the support and training they need to be effective, impactful leaders.

OUR CORE VALUES

Meaningful Impact We work to meaningfully and measurably ensure that all children have the opportunity to attain an excellent education and achieve their potential.

Member Driven We exist to help our members have the greatest possible impact on educational opportunities available to all children in their communities.

Leadership Achieving educational equity requires bold solutions from informed, purposeful leaders grounded in the experience of teaching in low-income communities and a deep belief in the potential of all children.

Collective Action All of us have a role to play in achieving educational equity and our impact will be greater if we are organized and connected.

All Voices We will succeed only if we actively engage all of our members and work side by side with communities to bring the full diversity of solutions and perspectives to these challenges.

Continuous Learning As a young organization, we operate with an entrepreneurial spirit, learn from our experiences, and continuously improve.
